

How to make... Rope wrapped corals

MATERIALS:

- Colourful and interesting rope pieces of different lengths
- scissors (to cut rope)
- raffia/coloured twine for wrapping with.

INSTRUCTIONS:

STEP 1. Select your pieces of rope and cut them to the size you want to use. For example pieces of rope approximately 10cm/15cm/20cm.

STEP 2. Place the pieces of rope in a bunch with a variety of lengths gathered together

STEP 3. Use another piece of rope or coloured twine, with a length of around 20-30cm to tie the bunch together tightly

You can wrap the twine around and knot to fix in place or continue wrapping up the length of the rope strands for decoration.

STEP 4. Unravel and tousle the ends of your rope to create wild and wavy strands at the top. You might like to add fishing weights for decoration as well.

STEP 5. SHARE WITH US email your creations to web@anmm.gov.au
